EBF4 (C2) Antibody, Rabbit Polyclonal

Cat#: R0795-2

Quantity: 100 ul

Predicted | Observed M.W.: 64, 68 | 60, 68 kDa

Lot#: Refer to vial

Application: WB

Uniprot ID: Q9BQW3

Background:

Transcription factor Early B-cell factor 4 (EBF4) is also known as COE4, which belongs to the conserved Olf/EBF family of helix-loop-helix transcription factors, members of which play important roles in neural development and B-cell maturation. EBF4 recognizes variations of the palindromic sequence 5'-ATTCCCNNGGGAATT-3'.

Other Names:

Transcription factor COE4, Early B-cell factor 4, EBF-4, Olf-1/EBF-like 4, O/E-4, OE-4, COE4, KIAA1442

Source and Purity:

Rabbit polyclonal antibodies were produced by immunizing animals with a GST-fusion protein containing the C-terminal region of human EBF4. Antibodies were purified by affinity purification using immunogen.

Storage Buffer and Condition:

Supplied in 1 x PBS (pH 7.4), 100 ug/ml BSA, 40% Glycerol, 0.01% NaN₃. Store at -20 °C. Stable for 6 months from date of receipt.

Species Specificity:

Human, Mouse

Tested Applications:

WB: 1:1,000-1:3,000 (detect endogenous protein*)

*: The apparent protein size on WB may be different from the calculated M.W. due to modifications.

Product Data:

Fig 1. Western blot of total cell extracts from (A, E) mouse brain, (B) mouse thymus, (C) human HeLa, (D, F) human Jurkat; using 2 independent Abs against 2 distinct regions of human EBF4 at RT for 2 h. The 60 kD and 68 kD bands may represent different isoforms of EBF4 differentially expressed in various tissues/cells.
