QARS (M) Antibody, Rabbit Polyclonal

Cat#: R2875-2

Quantity: 100 ul

Predicted | Observed M.W.: 88 kDa

Lot#: Refer to vial

Application: WB

Uniprot ID: P47897

Background:

Glutamine--tRNA ligase (QARS) belongs to the class-I aminoacyl-tRNA synthetase family. Aminoacyl-tRNA synthetases catalyze the aminoacylation of tRNA by their cognate amino acid. Because of their central role in linking amino acids with nucleotide triplets contained in tRNAs, aminoacyl-tRNA synthetases are thought to be among the first proteins that appeared in evolution.

Other Names:

Glutamine--tRNA ligase, Glutaminyl-tRNA synthetase, GlnRS

Source and Purity:

Rabbit polyclonal antibodies were produced by immunizing animals with a GST-fusion protein containing middle region of human QARS. Antibodies were purified by affinity purification using immunogen.

Storage Buffer and Condition:

Supplied in 1 x PBS (pH 7.4), 100 ug/ml BSA, 40% Glycerol, 0.01% NaN₃. Store at -20 °C. Stable for 6 months from date of receipt.

Species Specificity:

Human, Mouse

Tested Applications:

WB: 1:1,000-1:3,000 (detect endogenous protein*)

*: The apparent protein size on WB may be different from the calculated M.W. due to modifications.

Product Data:

Fig 1. Western blot of total cell extracts from (A) mouse brain; (B) mouse thymus; using anti-QARS (M) (R2875-2) at RT for 2 h.
