## **A1BG (N) Antibody, Rabbit Polyclonal**

**Cat#: R3306-1**

**Quantity: 100 ul**

**Predicted | Observed M.W.: 54 | 68 kDa**

**Lot#: Refer to vial**

**Application: WB**

**Uniprot ID: P04217**

### **Background:**

Alpha-1B-glycoprotein (A1BG) is a secreted plasma glycoprotein of unknown function. A1BG shows sequence similarity to the variable regions of some immunoglobulin supergene family member proteins, and it interacts with CRISP3.

### **Other Names:**

Alpha-1B-glycoprotein, Alpha-1-B glycoprotein

### **Source and Purity:**

Rabbit polyclonal antibodies were produced by immunizing animals with a GST-fusion protein containing N-terminal region of human A1BG. Antibodies were purified by affinity purification using immunogen.

### **Storage Buffer and Condition:**

Supplied in 1 x PBS (pH 7.4), 100 ug/ml BSA, 40% Glycerol, 0.01% NaN<sub>3</sub>. Store at -20 °C. Stable for 6 months from date of receipt.

### **Species Specificity:**

Human

### **Tested Applications:**

WB: 1:1,000-1:3,000 (detect endogenous protein\*)

\*: The apparent protein size on WB may be different from the calculated M.W. due to modifications.

**Product Data:**

**Fig 1.** Western blot of total cell extracts from human Jurkat; using anti-A1BG (N) (R3306-1) at RT for 2 h. This Ab recognizes the 68 kD glycosylated A1BG.
