MAMSTR (C) Antibody, Rabbit Polyclonal

Cat#: R1210-2

Quantity: 100 ul

Predicted | Observed M.W.: 45 kDa

Lot#: Refer to vial

Application: WB

Uniprot ID: Q6ZN01

Background:

MEF2-activating motif and SAP domain-containing transcriptional regulator (MAMSTR) is a transcriptional coactivator. MAMSTR stimulates the transcriptional activity of MEF2C. MAMSTR stimulates MYOD1 activity in part via MEF2, resulting in an enhancement of skeletal muscle differentiation.

Other Names:

FLJ36070, MASTR, MEF2-activating motif and SAP domain-containing transcriptional regulator, MEF2-activating SAP transcriptional regulatory protein

Source and Purity:

Rabbit polyclonal antibodies were produced by immunizing animals with a GST-fusion protein containing the C-terminal region of human MAMSTR. Antibodies were purified by affinity purification using immunogen.

Storage Buffer and Condition:

Supplied in 1 x PBS (pH 7.4), 100 ug/ml BSA, 40% Glycerol, 0.01% NaN₃. Store at -20 °C. Stable for 6 months from date of receipt.

Species Specificity:

Human

Tested Applications:

WB: 1:1,000-1:3,000 (detect endogenous protein*)

*: The apparent protein size on WB may be different from the calculated M.W. due to modifications.

Product Data:

Fig 1. Western blot of total cell extracts from human HeLa; using anti-MAMSTR (C) (R1210-2) at RT for 2 h.
